

Toilet Service Unit Options:

- Small type: TSU 1.0 / 0.5 / 0.05
- Medium type: TSU 2.0 / 1.0 / 0.1
- Large type: TSU 3.0 / 1.2 / 0.1

Technical data:

Capacities:

Tanks	Small Type	Medium Type	Large Type
Waste water	1,000 L	2,000 L	3,000 L
Flush water	500 L	1,000 L	1,200 L
Disinfection	50 L	100 L	100 L

Basic configuration:

- Tank material made from stainless steel / 304
- Insulation hood approx. 25 mm thickness
- Strong vacuum pump with inside corrosion protection
- Water pump made from stainless steel
- Disinfection system with automatically and adjustable dosing from 1 - 5 % (Saves disinfection liquid)
- Automatically re-suction of the flush hose rest volume
- Siemens PLC control for easy access and preselection of aircraft filling.
- One man operation

Options:

- Hydraulic lift platform
 - Lifting height: 2,980 mm
 - Shifting horizontal: 500 mm
- Winter Service / Temperature range -40 up to +50 °C
- Electrical filling level system for all tanks with display in driver's cabin.
- Intelligent On-Board battery charger
- many more

Chassis options:

- I.e. MERCEDES ATEGO, MAN TGL, ISUZU NPR respectively to your wishes
- Wheelbase starts with 3,000 mm
- Manual or automatic gear
- Gross weight starts with approx. 6tons
